**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

UV will remain high to very high through Sunday, so suitable sun protection will be required. Temperatures may reach 30-31 Celsius in the valleys during the afternoon, bringing the risk of heat exhaustion for some. Be prepared to change routes quickly as any heavy showers may cause localised flooding.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sat 13 Aug 2022	0mm	0mm	0mm

Forecast for Monday 15 Aug 2022

Weather: Isolated mist and fog in the valleys will clear quickly after dawn, leaving a generally dry day. A little cloudier than of late, with a chance of heavy and thundery showers throughout Monday. Temperatures closer to average for the time of year, but still feeling warm in any prolonged sunny spells, and feeling humid at times.

Maximum wind: Westerly, 10-15mph.

Chance of cloud-free hill tops above 600m: 60%.

Low cloud and visibility: Cloud will stay mostly above the summits through Monday, but may cover the top of the highest summits in any heavy showers. Generally good visibility expected, although locally poor in any early mist and fog and deteriorating in any heavy showers.

Temperature: **Valleys:** Plus 14 Celsius, rising to plus 26 Celsius.
At 600m: Plus 13 Celsius, rising to plus 18 Celsius.
Freezing level: Well above all summits.
